1. Death Benefit

In case of unfortunate demise of Life Insured while the Policy is In-Force, the Death Benefit payable to your nominee will be –

Higher of:		Higher of:
— Fund Value; or — Sum Assured less Relevant Partial Withdrawals#; or — 105% of total premiums paid	+	— Top-up Fund Value; or — Top-up Sum Assured; or — 105% of total Top-up Premiums paid.

For Reduced Paid-up Policy

In case of unfortunate demise of Life Insured while the Policy is reduced paid-up, following Death Benefit will be paid:

Higher of:		Higher of:
— Fund Value; or — Paid-up Sum Assured less Relevant Partial Withdrawals#; or — 105% of total premiums paid	+	— Top-up Fund Value; or — Top-up Sum Assured; or — 105% of total Top-up Premiums paid.

'Paid up Sum Assured' = Sum Assured x Number of premiums paid / Number of premiums payable.

'Relevant Partial Withdrawals' will be calculated as follows:

Sum of Partial Withdrawals made during the two-year period immediately preceding the date of death of the Life Insured. Partial Withdrawals made from the Top-up Fund shall not be deducted for this purpose.

Top-up Sum Assured shall not be reduced after partial withdrawals from the Top-up fund.

In case of unfortunate demise of the Life Insured while the Policy is in Discontinuance Policy Fund, Discontinuance Policy Fund Value will be paid.

2. Loyalty Additions

The Loyalty Additions are applicable for premium paying term greater than or equal to 10 years. Starting from the end of 10th policy year and applicable every year till the end of the premium paying term, Loyalty Additions will get added to your Fund Value.

The Loyalty Additions as mentioned in the table below will be added only if all the premiums which have fallen due have been paid for that policy year.

Policy Year in which Loyalty Addition is applicable	% of last 12 month's average of daily fund value (Including Top-up Fund Value)
From end of 10th Policy Year till the end of Premium Paying Term	0.11%

The total fund value including the Loyalty Additions and Booster Additions already added till previous policy year will be considered to calculate the future Loyalty Additions.

Loyalty Additions will be added to the fund value on the last day of the respective policy year and will be added in the same proportion as the total fund value held in the unit linked funds at the time of additions. The Loyalty Additions once added will form part of the fund value. Loyalty Additions will not be added if the Policy is in Reduced Paid-Up status and during the Revival Period. In case of Revival of the Policy, Loyalty Additions, will commence from the end of the Policy Year in which the Policy is revived. However, Loyalty Additions added before the policy becomes reduced paid up would already have formed part of the fund value.

3. Booster Additions

Booster Additions, as mentioned in the table below are added at the end of 15th policy year and 20th policy year.

Policy Year in which Booster Addition is applicable	% of last 60 month's average of daily fund value (Including Top-Up Fund Value)
End of 15th Policy Year	0.50%
End of 20th Policy Year	0.75%

The total fund value including the Loyalty Additions, if any and Boosters Additions already added till previous policy year will be considered to calculate the future Booster Additions.

Booster Additions will be added to the fund value on the last day of the 15th and 20th policy year and will be added in the same proportion as the total fund value held in the unit linked funds at the time of additions. The Booster Additions once added will form part of the fund value.

Booster Additions will not be added if the Policy is in the Reduced Paid-Up status and during the Revival Period. In case of Revival of the Policy, Booster Additions, will commence from the end of the Policy Year in which the Policy is revived.

4. Return of Mortality Charge

On survival till maturity date, the total Mortality Charges (excluding extra mortality charges due to sub-standard life and taxes as applicable) deducted during the Policy Term will be added to the fund value at the maturity date.

The Return of Mortality Charge is subject to following conditions:

- All the due premiums payable under the policy are paid till the maturity date.
- The amount of Return of Mortality Charge will be added in the same proportion as the fund value held in the unit linked funds at maturity. NAV applicable as on the maturity date will be used for the unitization, if applicable.
- Return of Mortality Charge also include the mortality charges deducted from the Top-up fund value.
- Return of Mortality Charge is not applicable for reduced paid-up policy.

Illustrative Example for Loyalty Addition, Booster Addition & Return of Mortality Charge -

For example, Ajay, age 30 years, chooses to pay an Annualised Premium as Rs. 50,000 for a Premium Paying Term and Policy Term of 20 years. The below table illustrates the Loyalty Addition, Booster Addition and Return of Mortality Charge that is applicable from the end of 10th Policy year till the end of the Policy term-

5. Maturity Benefit

At the end of the Policy Term, on survival you will receive the Fund Value as your Maturity Benefit. You have an option to collect your Maturity Benefit in lump sum or in instalments by choosing the Settlement Option.

Settlement Option: Under this option, you need to choose:

— Settlement Term (option of 1, 2, 3, 4 or 5 years); and

— Frequency of pay-out (yearly, half-yearly, quarterly or monthly instalments)

Once you have chosen the settlement term and the frequency, the amount paid out in each instalment will be the outstanding Fund Value as on that instalment date divided by the number of outstanding instalments.

For example, you choose the Settlement Term of 3 years to be paid out in monthly instalments which means you have opted for 36 instalments.

Let's say the Fund Value at the beginning of Settlement Option period is Rs. 50, 00,000. The first pay-out will be calculated as Rs. 50, 00,000 / 36 = Rs. 1, 38,889.

Let's say at the time of 15th instalment, the Fund Value is Rs. 33, 50,000. Here, outstanding instalments are now 22. Hence, the 15th pay-out will be calculated as Rs. 33, 50,000 / 22 = Rs. 1,52,273.

Settlement Option can be selected/modified at least six months prior to maturity. It will be managed in the below mentioned method -

— The first instalment payment will be made on the Maturity Date of the Policy.

— Instalment payments will be made by redeeming Units from the Funds at the Unit Price applicable on the instalment date.

— The risk cover shall be maintained at 105% of the total premiums paid. Accordingly, mortality charges will be deducted.

— No charges except FMC, switching charges, if any, and mortality charges will be deducted during this period.

— At any point of time, during the settlement term you may opt for full payment of balance Fund Value, without any charges.

— The outstanding fund value will continue to remain invested in the existing funds unless specifically switched by you. During the Settlement Term and the investment risk in the investment portfolio is borne by you.

— In case of death of Life Insured during the Settlement Term: Higher of Balance Fund Value or 105% of the total premiums paid is payable to the nominee/ legal heir.

— Semi-Annual, Quarterly and Monthly modes are available only through ECS credit.

— Partial Withdrawals are not allowed during the Settlement Term.

— Switches are allowed during the Settlement Term.

— Life Stage & Duration based Strategy is not allowed during the Settlement Term.

— On complete withdrawal request the Fund Value as on date will be payable.

— No Loyalty Additions or Booster Additions will be added during the period of the Settlement option.

YOUR INVESTMENT OPTIONS

You have an option to pay your premium in any one of the two Investment Strategies –

1. Life Stage & Duration Based Strategy -

One's risk appetite depends on:

a) Age: As age increases, one's risk appetite decreases

b) Investment duration: Short investment duration leads to lower risk appetite

In order to manage your risk appetite, as your age increases and the remaining policy term reduces, this strategy ensures that your money is moved from equity oriented fund (Equity Large Cap Fund) to debt oriented fund (Bond Fund).

Under this strategy, a proportion of the Fund Value will be allocated in Equity Large Cap Fund basis the below formula:

$$\text{Min}\left(85, \frac{(100\text{-Attained Age})*\text{Remaining Policy Term}}{10}\right)\%$$

'Attained Age' refers to the age of the life insured as on the last birthday when the above formula is applied.

In simple words, the allocation percentage in Equity Large Cap Fund will be equal to (100-attained age) multiplied by remaining Policy Term divided by 10. This allocation percentage cannot be more than 85%. Remaining Fund Value will be allocated in Bond Fund.

At the time of opting in this strategy, based on the above formula, the allocated premium will be distributed between Equity Large Cap Fund and Bond Fund. We will automatically rebalance the proportion between above two funds as per the above formula on each Policy Anniversary.

An example of how this investment strategy works is shown below:

(Proportion invested in Equity Large Cap Fund)

Attained Age	Remaining Policy Term		
	10 Years	15 Years	20 Years
18 Years	82%	85%	85%
30 Years	70%	85%	85%
40 Years	60%	85%	85%
45 Years	55%	82.5%	85%
50 Years	50%	75%	85%

Let's say a 40 year old person opts for a 20 year policy Term. At inception, the allocation in Equity Large Cap Fund will be:

$$\text{Min}\left(85, \frac{(100-40)*20}{10}\right)\% = 85\%$$

After 15 years, the age will now be 55 years and remaining policy term will now be 5 years. At this stage, the allocation in Equity Large Cap Fund will be:

$$\text{Min}\left(85, \frac{(100-55)*5}{10}\right)\% = 22.5\%$$

2. Self-Managed Strategy -

Under this strategy, you can decide to put your money in your choice of fund(s) in any proportion. You can switch monies amongst these funds using the switch option. The funds available are listed below:

Fund Name	Objective of the fund	Asset Allocation	Minimum %age	Maximum %age	Risk Profile
Equity Large Cap Fund (SFIN:ULIF00118/08/11EQLARGECAP147)	To provide high equity exposure targeting higher returns in the long term.	Equity	60%	100%	High

Managed Fund (SFIN:ULIF00618/08/11MANAGED147)	This fund uses the expertise of the Company's fund manager to decide on the asset allocation between Equity and Debt / Money market instruments along with stock selection.	Equity	0%	40%	Medium
		Debt and Money Market Instruments	60%	100%	
Bond Fund (SFIN:ULIF00317/08/11BONDFUND147)	To provide relatively safe and less volatile investment option mainly through debt instruments and accumulation of income through investment in fixed income securities.	Equity	0%	0%	Low to medium
		Debt and Money Market Instruments	100%	100%	
Equity Blue Chip Fund (SFIN: ULIF01226/11/18ETLBLUCHIP147)	The objective of the fund is to provide long-term capital appreciation by predominantly investing in an equity portfolio of large cap stocks	Equity	60%	100%	High
		Debt and Money Market Instruments	0%	40%	
Gilt Fund (SFIN: ULIF01326/11/18ETLGILTFND147)	This fund will aim to provide accumulation of Income and capital appreciation through investments predominantly in Government Securities	Equity	0%	0%	Low to Medium
		Debt and Money Market Instruments (Government Securities)	60%	100%	
		Debt and Money Market Instruments (other than Government Securities)	0%	40%	

'Equity' asset class will include various equity related instruments as allowed by IRDAI from time to time (for e.g. Mutual Funds like Exchange Traded Fund).

'Debt and Money Market Instruments' asset class will include Bonds & Debentures, Commercial Paper, Certificate of Deposit, CBLO, Government Securities, Debt Mutual Fund, Preference Share, InviT and various other instruments as allowed by IRDAI from time to time.

YOUR PLAN FLEXIBILITIES

1. Change in Premium Paying Term (PPT):

You have an option to change (increase or decrease) the PPT subject to:

a. The PPTs allowed under the plan;

b. All other conditions in the plan being met;

c. Provided all the due premiums till the date of such request have been paid.

This alteration shall be allowed only if all the eligibility conditions as applicable at inception of the policy are met and in accordance with the Board Approved Underwriting Policy. Such option can be exercised while the policy is in-force and before the expiry of the existing premium paying term

2. Unlimited free switches between funds:

If you have chosen Self-Managed Strategy, you can move money between the funds depending on your financial priorities and investment outlook. This facility is called switching and is available free of cost. Minimum amount per switch is Rs. 5,000. In case your current Investment Strategy is Life Stage & Duration Based Strategy, switching facility is not available. If you have chosen the Life Stage & Duration based Strategy, you have an option to opt-in or opt-out of it at any point of time during the Policy Term. You may choose the Self-Managed Strategy by opting out of the Life Stage & Duration based Strategy at any point of time during the Policy Term.

3. Unlimited Premium Redirection:

If you have chosen Self-Managed Strategy, you can choose to allocate future premiums including Top-up Premiums in fund(s) different from that/those selected at policy inception or previous premium redirection request. This facility is called premium redirection and is available free of cost. The premium redirection notice should be given to the Company in writing at least two weeks' prior to the receipt of relevant premium. In case your current Investment Strategy is Life Stage & Duration Based Strategy, premium redirection facility is not available

4. Partial Withdrawals:

You may withdraw a part of your Fund Value as per your liquidity requirements at any time after the completion of the fifth Policy Anniversary, subject to following conditions:

— The Life Insured has attained the age of 18 years.

— Partial Withdrawals will be first adjusted from the Top-Up Fund Value (which excludes the Top-Up Premium locked in for 5 years), if available and then from the Policy Fund Value. There is a lock-in period of five years for each top up premium from the date of payment of that top up premium for the purpose of partial withdrawals.

— Minimum amount that can be withdrawn is Rs. 500 per withdrawal.

— You can make unlimited number of partial withdrawals as long as the resultant Fund Value after payment of such partial withdrawal is greater than or equal to 105% of total premiums paid (Including Top-up Premiums).

— The partial withdrawals will not be allowed which would result in termination of a contract.

— The partial withdrawals are free of cost.

5. Top-up premiums:

You can put in your surplus money as Top-up Premium over and above the Premium subject to following conditions:

— Top-up premiums are allowed at any time during the policy term, except in the last five years prior to the maturity date and only if all the due premiums have been paid at the time of making the top-up premiums.

— Each Top-up premium will be invested in separate Top-up account with a 60 months' lock-in period from the payment date.

— At any point of time during the Policy Term, the total top-up premiums paid shall not exceed the sum total of the base premiums paid to date.

— The Sum Assured on Top-up Premium shall be based on the age at payment of Top-up premium but not on the age at entry of the Life Insured.

— All top-up premiums made during the policy term shall have insurance cover treating them as single premium

NON FORFEITURE PROVISIONS

Surrender Benefit -

At any time during the Policy Term, you can choose to surrender the Policy.

If the surrender request is received before the completion of first 5 policy years, the fund value net of discontinuance charge shall be credited to the discontinued policy fund. Thereafter the treatment will be as mentioned under 'Discontinuance of Premiums' and 'Policy Revival' section.

If the surrender request is received after the completion of first 5 policy years, you shall be entitled to the fund value as on date of surrender and the policy will terminate.

Discontinuance of Premiums

Discontinuance of Policy during the Lock-in-Period (during the first 5 Policy Years)

Upon expiry of the Grace Period, in case of Discontinuance of Policy due to non-payment of premium, the Fund Value after deducting the applicable Discontinuance Charges, shall be credited to the Discontinued Policy Fund and the risk cover and rider cover, if any, shall cease.

All such discontinued policies shall be provided a Revival Period . On such discontinuance, the Company shall communicate the status of the policy, within three months of the first unpaid premium to You and provide the option to revive the Policy within the Revival Period.

i) In case You opt to revive but do not revive the Policy during the Revival Period, the proceeds of the Discontinued Policy Fund shall be paid to You at the end of the Revival Period or Lock-in Period whichever is later. In respect of Revival Period ending after lock-in Period, the Policy will remain in Discontinuance Fund till the end of the Revival Period. The Fund Management Charges of Discontinued Fund will be applicable during this period and no other charges will be applied.

ii) In case You do not exercise the option as set out above, the Policy shall continue without any risk cover and rider cover, if any, and the Policy Fund shall remain invested in the Discontinued Policy Fund. At the end of the Lock-in Period, the proceeds of the Discontinued Policy Fund shall be paid to You and the Policy shall terminate.

iii) However, You have an option to surrender the Policy anytime and proceeds of the Discontinued Policy Fund shall be payable at the end of the Lock-in Period or date of surrender whichever is later.

"proceeds of the Discontinued Policy Fund" means the Fund Value as on the date the Policy was discontinued, after addition of interest computed at the interest rate stipulated in Regulation 13 of IRDAI (Unit Linked Insurance Products) Regulations, 2019.

Treatment of policy while in Discontinued Policy Fund

Fund Value (net of relevant Discontinuance Charges) of the Policy discontinued is credited to the Discontinued Policy Fund. The proceeds of the Discontinued Policy Fund along with the returns generated on the same shall be available only upon completion of the Lock in Period or Revival Period, as applicable. The minimum guaranteed interest rate applicable to the Discontinued Policy Fund shall be declared by the Authority from time to time. The current minimum guaranteed interest rate applicable to the Discontinued Policy Fund is 4 per cent per annum.

The excess income earned in the Discontinued Policy Fund, over and above the minimum guaranteed interest rate will also be apportioned to the Discontinued Policy Fund in arriving at the proceeds of the Discontinued Policy Fund and will not be made available to the shareholders.

The Fund Management Charge on the Discontinued Policy Fund shall be declared by the Authority from time to time. Currently, the Fund Management Charge shall not exceed 50 basis points per annum.

Discontinuance of Policy after the lock-in-period (after first 5 policy years)

Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premium after lock-in period, the policy shall be converted into a reduced paid up policy with the paid-up sum assured i.e. original sum assured multiplied by the total number of premiums paid to the original number of premiums payable as per the terms and conditions of the policy. The policy shall continue to be in reduced paid-up status without rider cover, if any. All charges as per terms and conditions of the policy may be deducted during the revival period. However, the mortality charges shall be deducted based on the reduced paid up sum assured only.

On such discontinuance, the Company shall communicate the status of the policy, within three months of the first unpaid premium, to you and provide the following options:

1) To revive the policy within the revival period of three years, or

2) Complete withdrawal of the policy.

   i) In case you opt for (1) above but do not revive the policy during the revival period, the fund value shall be paid to you at the end of the revival period.

   ii) In case you do not exercise any option as set out above, the policy shall continue to be in reduced paid up status. At the end of the revival period the proceeds of the policy fund shall be paid to you and the policy shall terminate.

   iii) However, you have an option to surrender the policy anytime and proceeds of the policy fund shall be payable.

   iv) In case you opt for (2) above, then on the date of receipt of intimation, the Policy will be surrendered and Fund Value will be payable.

Policy Revival: You can revive the Policy within three years from the date of first unpaid premium.

To exercise the Revival Option, you are required to provide the Company with a written application along with payment of all due and unpaid Premiums. The proof of continued insurability and medical examination, if required (medical examination cost to be borne by you) and the results thereof would be reviewed by the Company as per the then Board approved underwriting policy.

Revival of a Discontinued Policy during the lock-in-period

a) Where You revive the Policy, the Policy will be revived restoring the risk cover, along with the investments made in the segregated funds as chosen by You, out of the Discontinued Policy Fund, less the applicable charges as mentioned below in accordance to the terms and conditions of the Policy.

b) The Company, at the time of revival:

   i. Shall collect all due and unpaid premiums will be collected without any interest or fee.

   ii. May levy Policy Administration Charge and Premium Allocation Charge as applicable during the Discontinuance period. Guarantee charges, if applicable during the discontinuance period, may be deducted provided the guarantee continues to be applicable. No other charges will be levied.

   iii. Shall add back to the Fund, the Discontinuance Charges deducted at the time of Discontinuance of the Policy.

Revival of a Discontinued Policy after the Lock-in-Period

a) Where You revive the Policy, the Policy shall be revived restoring the original risk cover in accordance with the terms and conditions of the Policy.

b) The Company, at the time of Revival:

   i. Shall collect all due and unpaid premiums under the Policy without charging any interest or fee. The rider, if any, may also be revived at the option of the Policyholder.

   ii. May levy Premium Allocation Charge as applicable. The guarantee charges may be deducted, if guarantee continues to be applicable.

   iii. No other charges shall be levied.

Loyalty Additions and Booster Additions will not be added to the policies in reduced paid-up status or during the Revival Period. In case of revival of the Policy, Loyalty Additions and Booster Additions, if applicable, will commence from the end of the policy year in which the policy is revived.

Mortality Charges: Mortality Charges are recovered on a monthly basis by the way of cancellation of units.

Monthly Mortality Charges = Sum at Risk * (Annual Mortality Charge rate of Life Insured / 12)

Where, Annual Mortality Charge rate of Life Insured/Policyholder depends on age last birthday and gender of Life Insured/Policyholder as on date of calculation.

Sum at Risk (SAR) for benefit on death of the Life Insured is the sum of:

{Highest of:

- Sum Assured minus relevant partial withdrawals#; or
- 105% of total premiums paid; or
- Fund Value as on that date

Minus the Fund Value as on that date.}

AND

{Highest of:

- Top-up Sum Assured; or
- 105% of total Top-up premiums paid; or
- Top-up Fund Value as on that date

Minus the Top-up Fund Value as on that date}

"Relevant Partial Withdrawals" will be calculated as follows:

Sum of Partial Withdrawals made during the two year period immediately preceding the date of death of the Life Insured.

Partial Withdrawals made from the Top-up Fund shall not be deducted for this purpose.

While the Policy is Reduced Paid-up, for the calculation of Sum at Risk (SAR) for benefit on death of the Life Insured on a given date for calculation of mortality charges, the Paid-Up Sum Assured will be applicable in place of Sum Assured.

During Settlement option, the Sum at Risk will be maximum of (0, 105% of total premiums paid minus Fund Value as on the date of calculation of mortality charges).

While the Policy is in Discontinuance as no additional death benefit is payable on death of the Policyholder, SAR is equal to zero.

INFORMATION The Mortality Charge Rates are guaranteed for the entire policy term.

EXCLUSION
